

Practical Ways to Profit in Ever Changing Markets

ATAA 2018 National Conference
18-20 May 2018 Rendezvous Hotel Melbourne

Raise Your Game and Take Your Trading to the Next Level

- How would you like to learn practical trading ideas from industry leading professionals that you can take away and use to enhance your bottom line?
- What if you could network with the cream of independent traders and investors from across Australia, and make connections that will help you get to where you want to be?
- Imagine if you could uncover fresh trading strategies to add to your portfolio, helping you to profit through all phases of market cycles.
- What if you had the chance to give your trading the boost it deserves by dedicating three days to invest in yourself and your trading?
- What if you could get all this and more for less than the cost of a few stop losses (and it's likely to even be tax deductible)?
- How would it feel to have taken positive action and invested in yourself to improve your trading and investing?
